To Whom It May Concern:

In 1994 Rochester City Lines retrofitted a GMC RTS transit bus with a S-1 Guard. This bus was in continuous service through our harsh winters for 12 years. The S-1 Guard was unaffected by the salt or cold and ice/snow did not stick to the urethane material.

The S-1 Guard is still in good condition firmly attached to our now retired bus. It actually out-lived the bus. Please direct any questions to my attention.

Sincerely,

A handwritten signature in cursive script that reads "Daniel G. Holter".

Daniel G. Holter
